

ATTENTION !

Dr. Hamer is deeply concerned about the ongoing plagiarism and irresponsible misuse of his discoveries. He wishes to inform the public, and particularly those seeking medical support based on GNM, that there is no association of any kind between German New Medicine®, including the GNM Therapy, and those groups and individuals listed below.

Dr. Hamer alerts the public to be particularly on guard with regard to the unqualified analysis of brain scans

TOTAL BIOLOGY is an organization founded in 1985 by **Dr. Claude Sabbah**, a French medical doctor. As early as 1993, Dr. Sabbah was ready to take over Dr. Hamer's "New Medicine" under the name of "La Biologie Totale" (Total Biology). To this day, followers of Dr. Sabbah, notably **Gérard Athias, Olivier Soulier** and off-shoots such as ...

Biological De-Programming or Biogenealogy (Christian Fleche, Patrick Obissier)

Biodecoding® (Anne-Marie Boularand, USA; Daniel Gambarte, Argentina; Enrique Bouron, Canada)

Awareness Healing (Dr. Nelie Johnson, MD)

Recall Healing (Gilbert Renaud, Ph.D.)

Quantum University (Dr. Paul Drouin)

Bioneuroemoción (Enric Corbera)

... continue to plagiarize and misrepresent Dr. Hamer's original discoveries. Their literature as well as their teaching reveals a serious lack of a basic understanding of German New Medicine, particularly with regards to the practical application of GNM.

META-Medicine® is plagiarizing Dr. Hamer's medical research on a large scale. In 2004, **Johannes Fisslinger** (Los Angeles, CA), together with **Dr. Anton Baader** (Germany), founder of the IMMA (Intl. Meta Medicine Association) callously took over and *renamed* Dr. Hamer's medical research of over 20 years! **Richard Flook**, based in Canada, acts as the international head trainer of this fraudulent organization.

NLP (Neuro-Linguistics Programming) is using Dr. Hamer's findings in their Time Line Therapy™ Techniques and Time Empowerment™ Techniques without giving credit to Dr. Hamer, as the originator of GNM, or any reference to Dr. Hamer's research material. A DHS (Dirk Hamer Syndrome) has been renamed to a SEE ("Significant Emotional Experience")

From Recent Trauma:

Current thinking is that it is not the childhood trauma that causes the cancer; it is a more recent trauma. It is also important to understand that it is the first event that allows the more recent SEE to create a lesion in the brain. One procedure in addition to Medical treatment is to release the SEE using what seem to be traditional psychological methods. But, doing this, even an imagined SEE is sufficient to bring back a relapse of the cancer symptoms. Our experience with Time Line Therapy™, however, is that the recurrence of the cancer can be prevented if the emotion on the first event is also released.

NLP and META-Medicine are now collaborating in the fraudulent take-over of German New Medicine®, joined by **Peter Fraser** (**NES- Nutri-Energetics System®**).

EPFX/SCIO, was developed by **William Nelsen**. The device is based on a random event generator that tests a large database of items, including "Hamer Herd facilities"! This alleged "Cancer Scan" matches the data of the disturbed brain area with other stored information. Because of the large number of parameters involved, the results are rather unpredictable. Needless to say that Dr. Hamer is shocked that his name has been used, once again, for a "medicine" that includes an irresponsible misrepresentation of his research.

Dr. David Holt, D.O. HMD (Integrative Medical Center, Nevada) **falsely presents himself as "the leading U.S. physician in German New Medicine"**. In **Dr. Holt's YouTube video** "German New Medicine. Creating a Heart Attack - An Animal Study", a "territorial loss conflict" is intentionally inflicted on a healthy dog. When, six weeks later, the experimenters returned the animal to his territory, the dog had a fatal heart attack (commented by **Dr. Mercola and Dr. Holt** with laughter). With this **disgraceful film**, Dr. Holt is trying to verify Dr. Hamer's findings on the cause of heart attacks. In this video, Dr. Holt is giving the entirely wrong impression that Dr. Hamer and German New Medicine is involved in animal experimentation. **Dr. Hamer strongly opposes testing on animals**. Dr. Hamer: "today's animal testing is nothing but cruelty, ignoring that animals have a soul. Therefore, I allow myself the following prediction: one day, all animal experimentation will be exposed as a disgrace for our whole society and will be seen as a testimony to our unspeakable lack of knowledge and sensitivity."

Dr. John Turner, D.C. (Atlanta, GA) who has been using Dr. Hamer's medical discoveries for the promotion of his "EON Therapy Certification Program", is now marketing his "research" under the name "**Quantum Neurological Reset Therapy**" (QNRT). Based on the two-phase pattern of all "diseases", the resolution ("clearing") of an emotional traumatic experience can cause the onset of healing symptoms with potentially serious complications, particularly during the Epileptoid Crisis. Since the psyche, the brain, and the related organ always work in unison, it is, according to Dr. Hamer, of the utmost importance to "downgrade" an intense conflict before its complete resolution. Under certain circumstances, it is even imperative **NOT** to resolve a conflict in order to prevent a difficult healing crisis. **Most noticeable symptoms**, such as swelling, pain, inflammation, fever, discharge as well as certain cancers, are signs that the **organism is already undergoing a natural healing process**, indicating that the **related conflict has already been resolved** ("cleared")!

Tammy McGregor (Calgary, Canada) has created an **iPhone APP** "inspired by the findings of Dr. Hamer" and marketed as a tool "*to be able to make your own diagnosis, craft your own prescription, and devise an action plan on how to help your healing soar!*". **We strongly caution the public not to buy into this irresponsible exploitation and distortion of Dr. Hamer's research.**

Debbie Carroll (Moncton, Canada) is selling GNM material that she gleaned from notes she took during Caroline Markolin's Canadian GNM Seminars. We feel obliged to inform those who are studying German New Medicine that her "GNM Articles" contain substantial errors and in many cases are blatantly wrong! With her "e-Cheat Sheets" she openly plagiarizes Dr. Hamer's *Scientific Chart of German New Medicine*®.

Since we keep receiving inquiries about the "**German New Medicine**" **face book page**, hosted by **John Theobald** (Canada), we must make it clear that LearningGNM.com is not associated with that page. Because of his obvious **misuse of the trademark German New Medicine**® through the presentation of subjects that are unrelated or contradictory to Dr. Hamer's work, as well as his postings of personal comments under a protected trade name, we firmly distance ourselves from John Theobald's face book activities.
