

VERIFICATIONS

"After I presented a lecture in Vienna in May 1991, a doctor gave me a brain computer tomogram (CT) of a patient. In the presence of 20 of his colleagues, among them radiologists and computer tomography experts, he asked me to tell him what symptoms the patient had and which type of conflicts were related to them. I was asked to conclude from the brain level the condition of the other two levels. I diagnosed from the brain CT a freshly bleeding bladder carcinoma in the healing phase, an old prostate carcinoma, a diabetic condition, an old bronchial carcinoma, and a sensory paralysis of a certain area in the body - and for each of these, the corresponding conflicts that the patient must have experienced. At this point the doctor stood up in front of all his colleagues and said, "Dr. Hamer, congratulations! Five specific claims - five successes! The patient had exactly what you say. And you were even able to differentiate what symptoms he had in the past and which symptom he has now."

Interview with Dr. Hamer, 1992

Since 1981, "The Five Biological Laws of the New Medicine" have been tested and verified by many physicians and professorial associations through signed documents. All verifications attest to the 100% accuracy of Dr. Hamer's medical findings.

Here are several examples of GNM verifications. To see the original supporting documents, please refer to this web page: <http://learninggnm.com/SBS/documents/verifications.html>

	<p>1984: Prof. Dr. Mannheimer (cardiology clinic, Vienna), Prof. Dr. Pokieser and Prof. Dr. Imhof (radiologists), both of the University of Vienna, Austria, test on 8 patients with Dr. Hamer findings about the correlation between heart attack, territorial conflict and alterations in the brain in form of a so-called Hamer Focus (HH). The results: all heart attacks occurred after the conflict had been resolved.</p>
	<p>1988: Univ. Prof. Dr. med. Birkmeyer and Dr. med. Rozkydal (both Vienna, Austria) tested, supervised by 5 physicians, the "Iron Rule of Cancer" (First Biological Law) on 7 patients. The result: 100 % accuracy.</p>
	<p>1989: At a medical conference in Munich (Germany), 17 doctors tested the "Five Biological Laws" on 27 patients. The results: 100% accuracy.</p>
	<p>1990: 6 patients are tested in Namur (Belgium) supervised by 17 medical doctors. The result: 100% accuracy.</p>

	<p>1990: During an international medical conference in Burgau (Austria) 20 patients were tested, supervised by 30 doctors. The result: 100% accuracy.</p>
--	--

	<p>1992: Dr. med. E. A. Stemmann, doctor of pediatrics and member of the Medical Faculty of the University of Düsseldorf, Germany, tested at a medical conference in Gelsenkirchen (May 23-24, 1992) the reproducibility of Dr. Hamer's discoveries based on 24 cases. On average, each case presented four to five diseases, including cancers, brain tumor, leukemia, multiple sclerosis, epilepsy, sarcoma, diabetes, infections, tuberculosis, and mental illnesses. The committee found the biological laws of the "New Medicine" to be 100% accurate in all cases. The verification document, signed by Dr. med. Stemmann and Dr. med. Elke Mühlport is addressed to the Dean of the Medical Faculty, Prof. Dr. D. P. Pfister.</p>
---	--

	<p>1993: Dr. med. Willibald Stangl, president of the Medical Officer Association of Lower Austria, tested the New Medicine on 250 cases. The result: 100% agreement with Dr. Hamer's findings.</p>
--	---

	<p>1998: The Medical Faculty of the University of Trnava (Slovakia) tested seven patients with 20 specific medical conditions at the Sainte Elisabeth Institute of Oncology at Bratislava and the Oncology unit of the Hospital of Trnava. As stated in the official certification: The objective was to establish whether Dr. Hamer's system of medicine could be verified by using a scientific method to show that his results are repeatable. This has been the case. (see Trnava Document, 11.09.1998)</p>

	<p>On July 12, 2011, the Government of Nicaragua has officially recognized German New Medicine® (Nueva Medicina Germanica®) as a medical therapy.</p>
---	--

Since **German New Medicine** is based strictly on scientific criteria and applicable to practically all diseases known in medicine, the Five Biological Laws can be tested and verified in anyone's medical case. Considering the three levels of our organism (psyche, brain and organ), we are able to investigate the psychological, cerebral and physical development of a disease at every step and in every phase (**Second Biological Law**). The **DHS** (conflict shock), the **conflict active phase**, the **conflict resolution**, the **healing phase** and the **Epileptoid Crisis (epi-crisis)**, can be observed together with the histological formation (**Third Biological Law**) and the microbial involvement (**Fourth Biological Law**) on all three levels at the same time. We are dealing here with what is called in science an over-determined system, wherein, if we know the condition of one level, we can conclude the condition of the other two. It is this over-determined system that separates the Five Biological Laws of German New Medicine® from the many theories of standard medicine.
